Agency for the development of the Financial Centre

Luxembourg for Finance (LFF) is the Agency for the Development of the Financial Centre. It is a public-private partnership between the Luxembourg Government and the Luxembourg Financial Industry Federation (PROFIL), under the Presidency of the Minister of Finance. Founded in 2008, its objective is to promote the expertise of the financial centre and the diversification of its services abroad through different communication channels.

The agency continuously monitors global trends and evolutions in finance in order to identify development opportunities for the Luxembourg financial centre and to adapt communicational measures to different target markets and target groups. It is also the first port of call for foreign journalists.

In cooperation with the various professional associations, LFF develops documentation on products and services available in Luxembourg and their relevant legal and regulatory framework.

Furthermore, LFF organises seminars in international business locations and takes part in selected world-class trade fairs and congresses.
